

Sheikh Jayed Ahmed Noyon

Updated September 29, 2026

GitHub: [MRjayed1](#)

Portfolio: [portfoliojayed08.netlify.app](#)

Research interests

Explainable Machine Learning in Public Health, Computer Vision, Deep Learning, Natural Language Processing

Education

Sylhet Engineering College

Sylhet, Bangladesh

B.Sc. in Computer Science and Engineering

Expected 2027

Relevant coursework: Deep Learning, Data Structures & Algorithms, Software Development, Object-Oriented Programming, Image Processing

Research manuscripts

An Explainable Machine Learning Framework for the Classification of Skilled Birth Attendance in Cambodia

Under peer review

Multi-Output Tense and Sentence Structure Classification Across English and Bangla: A Comparative Study of Machine Learning, Deep Learning, and Explainable AI

Submitted

Vision-Based Medicine Strip Identification Under Damage Conditions Using Deep Learning

In progress

Projects

Laundry Management System

- Built a web-based platform for Airbnb hosts, motels, and hotels to streamline laundry pickup, delivery, and order tracking.
- Develop and maintain the system for a live client, addressing real-world requirements and delivering ongoing features.

[Code on GitHub](#)

School Management System

- Developed a full-stack web application to manage student, teacher, and administrative data, academic records, and day-to-day school operations.

[Code on GitHub](#)

Research collaboration

ACM Lab Coordinator, SEC Programming Club

Research Collaborator, [NURO Research Lab](#)

Skills

Computer vision: Image classification, object detection, deep learning-based visual analysis

Image processing: Preprocessing, feature extraction, image enhancement

NLP: Text classification, sequence modeling, linguistic feature extraction

Web development: MERN stack

Databases: MongoDB; MySQL (basic)

Data analysis & visualization: Python, NumPy, Matplotlib

Professional: Technical communication, teamwork, analytical problem-solving

Other experiences

AI model training and evaluation

Contributed to the training and evaluation of AI models through work with Outlier.

Pharmacy experience

Over five years of professional pharmacy experience with hands-on knowledge of medicines.
